United 282 is designed specifically as a general, non-acid, ready-to-use, non- abrasive cleaner and disinfectant for use in hospitals, nursing homes, patient rooms, operating rooms, ICUs, exam rooms, shower rooms, locker rooms, public restrooms, schools, food processing plants, food service establishments (restaurants), commercial kitchens, transportation terminals, office buildings, manufacturing facilities, lodging establishments, retail businesses, educational centers, pet stores, schools, and life science laboratories, and athletic/ recreational facilities where housekeeping is of prime importance in controlling the hazard of cross contamination. It is formulated to disinfect hard, non-porous, inanimate environmental surfaces: fiberglass, walls, metal surfaces, stainless steel surfaces, porcelain, glazed ceramic tile, plastic surfaces, chrome, brass, copper, laminated surfaces, baked enamel surfaces, bathrooms, shower stalls, bathtubs, and cabinets. For plastic and painted surfaces, spot test on an inconspicuous area before use. May be used in the kitchen on counters, sinks, appliances, and stovetops. A rinse with potable water is required for surfaces in direct contact with food. United 282 deboners those areas that generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, basements, restrooms and other areas which are prone to odors caused by microorganisms.

DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is not for use on an animal or semi-critical medical device surfaces. Fill or refill the 16 oz. United 282 spray bottle with United 282 refill. Pour product into spray bottle over sink or tub basin.

DISINFECTION, DEODORIZING AND CLEANING - Remove gross FFD or heavy soil prior to application. Hold container six to eight inches from surface to be treated. Spray area until it is covered with the solution. Allow United 282 to penetrate and the surface to remain wet for 3 minutes (for Bloodborne Pathogens: allow surface to remain wet for HIV-1 1 minute and for HBV and HCV 5 minutes). No scrubbing is necessary. Wipe off with a clean cloth, mop or sponge. The product will not leach or soap scum.

One-step cleaning and disinfection of toilet bowls and urinals: Remove water from bowl by forcing water over top with a swab mop applicator. Press swab mop against side of the bowl to remove excess water from applicator. Apply 1 to 2 ounces of United 282 evenly, allowing sufficient time for product to cover entire surface of bowl for maximum cleaning. Scrub bowl completely using a scrub brush or toilet mop, making sure to get under the rim. Let stand for 3 minutes (for Bloodborne Pathogens: allow surface to remain wet for HIV-1 1 minute and for HBV and HCV-5 minutes) and flush.

To disinfect food processing premises: before using United 282, food products and packaging materials must be removed or carefully protected. For counters, appliances, tables, hold container six to eight inches from the surface to be treated and spray area until it is covered with the solution. Allow United 282 to penetrate and remain wet for 3 minutes (for Bloodborne Pathogens: allow surface to remain wet for HIV-1 1 minute and for HBV and HCV-5 minutes). Wipe off with a clean cloth, mop or sponge and thoroughly rinse all surfaces in the area with potable water. Heavily soiled areas must be pre-cleaned before using this product. To disinfect foodservice establishment food contact surfaces: before using United 282 food products and packaging materials must be removed or carefully protected. For counters, appliances, tables, hold container six to eight inches from the surface to be treated and spray area until it is covered with the solution. Allow United 282 to penetrate and remain wet for 3 minutes (for Bloodborne Pathogens: allow surface to remain wet for HIV-1 1 minute and for HBV and HCV-5 minutes). Wipe off with a clean cloth, mop or sponge and thoroughly rinse all surfaces in the area with potable water. Heavily soiled areas must be pre-cleaned before using this product.

To disinfect service food establishment food contact surfaces: before using United 282 food products and packaging materials must be removed or carefully protected. For counters, appliances, tables, hold container six to eight inches from the surface to be treated and spray area until it is covered with the solution. Allow United 282 to penetrate and remain wet for 3 minutes (for Bloodborne Pathogens: allow surface to remain wet for HIV-1 1 minute and for HBV and HCV-5 minutes). Wipe off with a clean cloth, mop or sponge and thoroughly rinse all surfaces in the area with potable water. Heavily soiled areas must be pre-cleaned before using this product. Do not use on eating utensils, glasses or cookware.

Disinfection of animal quarters and kennels: before using United 282, remove all animals and livestock from premises. Remove all litter and manure from floors, walls and surfaces of facilities occupied or traversed by animals. Empty all troughs, rags, and other feeding and watering apparatus. Thoroughly clean all surfaces with soap or detergent and rinse with water. Apply United 282 for disinfection of pre-cleaned animal quarters and kennels. Saturate the surfaces with this product and allow it to contact the areas a period of 3 minutes (for Bovine Viral Diarrhea Virus (BVDV) 5 minutes and for Salmonella enterica enterica 30 minutes) for Canine Parvovirus 10 minutes). Ventilate building and other closed spaces. Do not house animals or employ animal treatment until the treatment has been absorbed, set or dried. All treated equipment that will contact feed or drinking water must be rinsed with potable water before reuse. Use only approved AOAC test methods under Good Laboratory Practices, in the presence of >3% blood serum and a 3 minute contact time, unless otherwise noted. United 282 kills the following organisms on hard non-porous inanimate surfaces:

BACTERICIDAL ACTIVITY (BACTERIA):
- Pseudomonas aeruginosa
- Staphylococcus aureus
- Salmonella (choleraesuis) enterica
- Escherichia coli
- Enterococcus faecium
- Streptococcus pyogenes

ANTIBIOTIC-RESISTANT BACTERICIDAL ACTIVITY:
- Methicillin resistant Staphylococcus aureus (MRSA)
- Vancomycin resistant Enterococcus faecalis (VRE)
- Vancomycin intermediate resistant Staphylococcus aureus (VAE)
- Methicillin resistant Staphylococcus epidermidis (MRSE)

COMMUNITY Associated Methicillin resistant Staphylococcus aureus (CA-MRSA), Genotype USA400
Community Associated Methicillin resistant Staphylococcus aureus (CA-MRSA), Genotype USA200

TUBERCULOCIDAL ACTIVITY – United 282 exhibits disinfectant efficacy against Mycobacterium tuberculosis BCG at 20 degrees Centigrade when the treated surface is allowed to remain wet for 5 minutes.

VIRUCIDAL ACTIVITY – United 282 kills on hard, non-porous inanimate surfaces when allowed to remain wet for a 10 minute contact time against:
- Canine Parvovirus
- Hepatitis A Virus
- Poliovirus Type 1

**STORAGE AND DISPOSAL**

**CANNOT CONTAIN WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.**

**PESTICIDE STORAGE** – Store in dry, cool, and dark place in a secure, tightly closed container, and use only as directed on label.

**PESTICIDE DISPOSAL** – Do not mix with other chemicals before application. Dispose of used containers in accordance with local regulations and the manufacturer’s instructions.

**CONTAINER DISPOSAL** – Non-hazardous container. Do not reuse or resell. Clean container properly after application. Rinse container and dispose of appropriately.

**HAZARDOUS WASTE DISPOSAL** – Contact local waste disposal company for proper disposal of equipment. Discard packaging and containers in accordance with local waste disposal procedures.

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**PRECAUTIONARY STATEMENTS**

**KEEP OUT OF REACH OF CHILDREN.**

**FIRST AID**

**NOTE TO PHYSICIAN**

**CAUTION**

**FUNGICIDAL ACTIVITY**

**EFFICACY TESTS HAVE DEMONSTRATED THAT THIS PRODUCT IS AN EFFECTIVE BACTERICIDE, FUNGICIDE, AND VIRUCIDE IN THE PRESENCE OF ORGANIC SOIL (5% BLOOD SERUM).**

**MILDEWSTACE**

**KILLS 99.9% of Germs • Kills 99.9% of Bacteria**

**Meets OSHA Bloodborne Pathogen Standard for HIV, HBV & HCV**

**Kills HIV-1, HBV and HCV on Pre-Cleaned Environmental Surfaces/Objects Previously Soiled with Blood/Body Fluids**

**In health care settings (Hospitals, Nursing Homes, and other settings where there is an expected likelihood of spattering of soiled/contaminated objects with blood or body fluids, and in which the surfaces/objects likely to be splashed with blood/body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS), Hepatitis B Virus (HBV), and Hepatitis C Virus (HCV)).**

**DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.**
