

MEGA DEVOUR Super Concentrated Bacteria for Drains is a drain maintenance treatment product packaged in cartridges for use with the A348 Kompressor Dosing System™.

The **MEGA DEVOUR** formula contains seven probiotic strains of bacteria to reduce and control the fats, oils and grease (FOG), along with other organic drain sludge. It is super concentrated, providing 5.5 billion CFU per milliliter of beneficial bacteria. That's 100 times more active than other products on the market.

Combined with the Kompressor Dosing System™, each 550 mL cartridge of product provides up to 4 weeks of treatment to keep these drains flowing freely.
