Subj: RESPONSE TO P.S.I. PRODUCT NUMBER 40

I would like to take this time to let you know about the positive response to your product. I am in charge of the boats at Weapons and Field Training Battalion and over the last 2 years we had a huge problem with flat tires on both our boat trailers and our golf carts. We averaged one trailer tire and at least two golf cart tires a week due to our location at the ranges. Your sales rep Jack Little introduced us to P.S.I. in Dec, since the purchase of this product we have gone almost two months with no flat tires. The initial cost of the product has already been recouped as we no longer are buying new tires.

Sincerely,

Mark J. Bellis
GySgt USMC
