

When it is sweltering outside, keep the chill in your AC system with...

United 267

Brrr!

Foaming Chiller Coil Cleaner

This ready-to-use formula contains:

- Tough surfactants to cut through built-up grease and dirt.
- Quaternary to eliminate odors in the system and drip pans.

Regular maintenance with **Brrr!** will keep your chiller coils working to maximum efficiency.

- Clean coils work better and faster.
- Reduces energy bills.
- Prolongs equipment life.

Cleaning coils is easy:

- No mixing or diluting. Simply spray on **Brrr!** and the product will work to lift dirt and debris away from the coils.
- No rinsing needed. Allow the product several minutes to begin working. Bring the system back on and the natural condensation will rinse it away for you.

Brrr! can be used with either United's A078 Foamatic Trigger Sprayer for maximum foaming; or the A083 Quart Trigger Sprayer for maximum penetration of coils.

Don't get beat by the heat.
Maintain your cool with **Brrr!**
