1. PRODUCT AND COMPANY IDENTIFICATION

**Product identifier**
- **Product Name**: United 118 OUTRAGEOUS ORANGE

**Other means of identification**
- **SDS#**: UNITED 118

**Recommended use of the chemical**
- **Recommended use**: Professional Strength Stainless Steel Cleaner and Polish
- **Uses Advised Against**: For industrial and institutional use only.

**Details of the supplier of the safety data sheet**
- **Company Name**: United Laboratories, Inc.
- **Address**: 320 37th Avenue, St. Charles, IL 60174

**Emergency telephone number**
- **Emergency Telephone**: 800-323-2594 (to reorder)
- **Emergency Telephone**: INFOTRAC 1-800-535-5053 (North America)
- **Emergency Telephone**: 1-352-323-3500 (International)

2. HAZARDS IDENTIFICATION

**Classification**

**OSHA Regulatory Status**
- This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

<table>
<thead>
<tr>
<th>Hazard Class</th>
<th>Category</th>
</tr>
</thead>
<tbody>
<tr>
<td>Flammable Aerosols</td>
<td>Category 1</td>
</tr>
<tr>

</tr>
</tbody>
</table>

**Label elements**

**Emergency Overview**

**Danger**

**Hazard statements**
- Extremely flammable aerosol. Causes skin irritation. Harmful in contact with skin. May cause an allergic skin reaction.
Appearance  Pale Amber  

Physical state  Liquid  

Odor  Citrus Scent  

Prevention  
Keep away from heat/sparks/open flames/hot surfaces. No smoking. Do not spray on an open flame or other ignition source. 
Pressurized container: Do not pierce or burn, even after use. Avoid breathing gas. Wash thoroughly after handling. Wear protective gloves/protective clothing. Contaminated work clothing must not be allowed out of the workplace.  

Response  
If on skin: Wash with plenty of water. Call a poison center or physician if you feel unwell. Specific treatment (see this label). If skin irritation or rash occurs: Get medical attention or advice. Take off contaminated clothing and wash before reuse.  

Storage  
Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.  

Disposal  
Dispose of contents/container in accordance with local/regional/national/international regulations.  

Hazard(s) not otherwise classified (HNOC)  
Not classified.  

Environmental hazards  
Hazardous to the aquatic environment, acute hazard - Category 1 
Hazardous to the aquatic environment, long-term hazard - Category 1  

Supplemental information  
Hazard statement – Very toxic to aquatic life. Very toxic to aquatic life with long lasting effects.  
Prevention – Avoid release to the environment.  
Response – Collect spillage.  

22.41% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 22.41% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

*The exact percentage (concentration) of composition has been withheld as a trade secret.  

4. FIRST AID MEASURES  

First aid measures  
Skin Contact  
Remove contaminated clothing. Wash off with soap and plenty of water. Call a poison control center or physician if you feel unwell. If skin irritation or rash occurs: Get medical attention/advice. For minor skin contact, avoid spreading material on unaffected skin.
Eye contact
Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continuing rinsing. If eye irritation persist: Get medical attention.

Inhalation
If symptoms develop move individual to fresh air. Get medical attention if symptoms persist.

Ingestion
Call a physician or poison control center if you feel unwell. Rinse mouth.

**Most important symptoms and effects, both acute and delayed**
May cause allergic skin reaction. Irritant effects.

**Indication of any immediate medical attention and special treatment needed**
Provide general supportive measures and treat symptomatically. Symptoms may be delayed. Ensure the medical personnel are aware of the material(s) involved, and take precautions to protect themselves. If you feel unwell, seek medical advice (show label where possible). Wash contaminated clothing before reuse.

### 5. FIRE-FIGHTING MEASURES

**Suitable extinguishing media**

**Unsuitable extinguishing media** None Known.

**Specific hazards arising from the chemical**
Contents under pressure. Pressurized container may explode when exposed to heat or flame.

**Protective equipment and precautions for firefighters**
Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed space, SCBA.

**Fire-fighting equipment/instructions**
Move containers from fire area if you can do so at no risk. Use water spray to cool unopened containers. Containers should be cooled with water to prevent vapor pressure build up.

**Specific Methods**
Use standard firefighting procedures and consider the hazards of other involved materials. Move container from fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. In the event of fire and/or explosion no not breathe fumes.

### 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures**

**Personal precautions**
Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Avoid breathing gas. Ventilate closed spaces before entering them. Local authorities should be advised in significant spillages cannot be contained. For personal protection, see Section 8 of the SDS.

**Environmental precautions**

**Environmental precautions**
Avoid release into the environment. Contact local authorities in case of spillage to drain/aquatic environment. Prevent further leakage or spillage if safe to do so. Do not contaminate water. Avoid discharge into drains, water courses or onto the ground.
Methods and material for containment and cleaning up

Methods for containment
Refer to attached SDS and/or instructions for use. Prevent further leakage or spillage if safe to do so. Move the container to a safe and open area if the leak is irreparable. Eliminate all ignition sources (no smoking, flares, sparks or flames in immediate area). Keep combustibles (wood, oil, paper, etc.) away from spilled material. Stop leak if you can do so without risk. Collect spillage.

Methods for cleaning up
Move the container to a safe and open area if the leak is irreparable. Isolate area until gas has dispersed. Use water spray to reduce vapors or divert vapor cloud drift. Prevent entry into waterways, sewer, basements or confined areas. Flush area with water, after product has been cleaned. Following product recovery, flush area with water. This material is classified as a water pollutant under the Clean Water Act and should be prevented from contaminating soil or from entering sewage and drainage systems which lead to waterways. For waste disposal see Section 8 of SDS.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on safe handling
Pressurized container: Do not pierce or burn, even after use. Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind or expose containers to heat, sparks, flame and other sources of ignition. Do not spray on naked flame or any other incandescent material. Equipment used when handling the product must be grounded. Do not re-use empty containers. Do not taste or swallow. Use only in ventilated areas. Avoid breathing in gas. Avoid contact with eyes. Avoid prolonged exposure. Avoid contact with clothing. Observe good industrial hygiene practices. Wash hands thoroughly after handling. Wash contaminated clothing before reuse. Do not empty

Conditions for safe storage, including any incompatibilities

Storage Conditions
Store locked up. Pressurized container. Do not puncture, incinerate or crush. Do not handle or store near flame, heat and sources of ignition. Avoid exposure to direct sunlight, exceeding 50°C/122°F. This material can accumulate static charge which may cause spark and become an ignition source. Level 3 Aerosol

Incompatible materials
Store away from incompatible materials (see Section 10 of the SDS).

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidelines
No Exposure limits noted for ingredient(s).

NIOSH IDLH Immediately Dangerous to Life or Health

Biological limit values
No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls

Engineering Controls
Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.
Individual protection measures, such as personal protective equipment

- **Eye/face protection**: Wear eye/face protection. Wear safety glasses with side shields (or goggles).
- **Skin and body protection**: Wear protective gloves. Wear appropriate chemical resistant clothing.
- **Respiratory protection**: If permissible levels are exceeded use NIOSH mechanical filter / organic vapor cartridge or an air-supplied respirator.
- **Thermal hazards**: Wear appropriate thermal protective clothing, when necessary.
- **General Hygiene**: When using do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Regular cleaning of equipment, work area and clothing is recommended to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

### 10. STABILITY AND REACTIVITY

**Reactivity**

This product is stable and non-reactive under normal conditions of use, storage and transport.

**Chemical stability**

Material is stable at normal conditions.

**Possibility of Hazardous Reactions**

Hazardous polymerization does not occur.
**Conditions to avoid**
Avoid temperatures exceeding the flash point. Avoid heat, spark, open flames and other ignition sources.

**Hazardous Decomposition Products**
No hazardous decomposition products are known.

---

### 11. TOXICOLOGICAL INFORMATION

#### Information on likely routes of exposure

<tr>
<td>Carbon Dioxide (124-38-9)</td>
<td>-</td>
<td>-</td>
<td>-</td>
</tr>
</tbody>
</table>

*Estimates for product may be based on additional component data not shown.

**Skin/Eye irritation**
Causes skin irritation. Direct contact with eyes may cause temporary irritation.

**Sensitization**
May cause an allergic skin reaction.

**Germ cell mutagenicity**
No information available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

**Carcinogenicity**
This product is not considered to be a carcinogen by IARC, ACGIH, NTP and OSHA. D-Limonene (5989-27-5) – 3 not classified as to carcinogenicity to humans.

**Reproductive toxicity**
No expected to cause reproductive or developmental effects.

**STOT - single exposure**
Not classified.

**STOT - repeated exposure**
Not classified.

**Aspiration hazard**
Due to the form of the product, no likely.

**Chronic effects**
Prolonged inhalation may be harmful.

---

### 12. ECOLOGICAL INFORMATION

**Ecotoxicity**
Very toxic to aquatic life with long lasting effect. Accumulation in aquatic organisms is expected.

**Persistence and degradability**
No Information available.

**Bioaccumulation**
No Information available.
Other adverse effects

No other adverse environmental effects (e.g., ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

### 13. DISPOSAL CONSIDERATIONS

#### Waste treatment methods

**Disposal of wastes**
Collect or dispose in sealed containers and licensed waste disposal site. Contents under pressure. Do no puncture or incinerate. Do not drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Disposal should be in accordance with applicable regional, national, local, international laws and regulations.

**Local disposal regulations**
Dispose in accordance with all applicable regulations.

**Hazardous waste code**
The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

**Waste from residues/unused products**
Dispose in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner. (See Disposal Instructions).

**Contaminated packaging**
Do not reuse container. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

### 14. TRANSPORT INFORMATION

This product meets the exception requirements of Section 173.306 as a limited quantity and may be shipped as a limited quantity. Until 12/31/2020, the “Consumer Commodity-ORM-D” marking may still be used in place of the new limited quantity diamond mark for packages of UN 1950 Aerosols. Limited quantities require the limited quantity diamond mark on cartons after 12/31/2020 and may be used now in place of the “Consumer Commodity ORM-D” marking and both may be displayed concurrently.

15. REGULATORY INFORMATION

International Inventories
Australia, Canada, China, Europe, Korea, New Zealand, Philippines, United States and Puerto Rico – Yes*
Canada, Europe, and Japan - No

Legend:
TSCA - United States Toxic Substances Control Act Section 8(b) Inventory-No regulated.
DSL/NDSL - Canadian Domestic Substances List/Non-Domestic Substances List-No

*S A Yes indicates that all components of this product comply with the inventory requirements administered by the governing county(s). A No indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).

US Federal Regulations
This product is a “Hazardous Chemical” as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

SARA 302/304 Extremely hazardous substance and Emergency release notification
None.

Superfund Amendments and Reauthorization Act of 1986
Acute health hazard  No
Delayed hazard  Yes
Fire hazard  Yes
Sudden release of pressure hazard  Yes
Reactivity Hazard  No

SARA 311-312 Hazardous chemical
None.

CERCLA
This material, as supplied, does not contain a substance regulated as a hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355).

CAA (Clean Air Act) Section 112 Hazardous Air Pollutants (HAPs) List – Not regulated.
CAA (Clean Air Act) Section 112(r) Accidental Release Prevention (40 CFR 68.130) – Not regulated.
SDWA (Safe Drinking Water Act) – Not Regulated.
DEA (Drug Enforcement Administration). List 2, Essential Chemicals (21 CFR 1310.02(b) and 1310.04(f)(2) and Chemical Code Number – Not Listed.
FDA (Food and Drug Administration) - Not Regulated.

US State Regulations
California Proposition 65
WARNING: This product contains any chemicals listed as carcinogens or reproductive toxins.
