1. PRODUCT AND COMPANY IDENTIFICATION

Product identifier
Product Name United 125 ALL STIK

Other means of identification
SDS# UNITED 125

Recommended use of the chemical
And restrictions on use
Recommended use Waterproof Heavy Duty Adhesive Spray.
Uses Advised Against For industrial and institutional use only.

Details of the supplier of the safety data sheet
Company Name United Laboratories, Inc.
320 37th Avenue
St. Charles, IL 60174
www.unitedlabsinc.com

Emergency telephone number
Emergency Telephone 800-323-2594 (to reorder)
INFOTRAC 1-800-535-5053 (North America)
1-352-323-3500 (International)

2. HAZARDS IDENTIFICATION

Classification

OSHA Regulatory Status
This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

<table>

Label elements

Emergency Overview

Danger

Hazard statements
Extremely flammable aerosol. Contains gas under pressure: May explode if heated. Causes skin and serious eye irritation. Suspected of damaging fertility or the unborn child. May cause drowsiness or dizziness. May cause damage to nervous system through prolonged or repeated exposure. May be fatal if swallowed and enters airways.

This product contains the following percentage of chemicals of unknown toxicity: 0%.
Appearance  Pale yellow  Physical state  Aerosol  Odor  Solvent

Precautionary Statements

Prevention
Keep away from heat/sparks/open flames/hot surfaces. No smoking. Do not spray on an open flame or other ignition source. Do no pierce or burn even after use. Pressurized container. Protect from sunlight. Wash hands thoroughly after handling. Wear protective gloves and eye protection.

Response
If on skin: Wash with plenty of water. If skin irritation occurs: Get medical attention. Take off contaminated clothing and wash before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. If exposed or concerned: Get medical advice or attention. Do not breathe fumes, mist, vapors, and spray. Use only outdoors or in a well-ventilated area. If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a poison center or doctor if you feel unwell. If swallowed: Immediately call a poison center or doctor.

Storage
Store in a well-ventilated place. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.

Disposal
Dispose of contents/container in accordance with local/state/national regulations.

Hazard(s) not otherwise classified (HNOC)
Not applicable.

4. FIRST AID MEASURES

First aid measures

Skin Contact
Immediately was with soap and water for 15 minutes. Remove contaminated clothing and shoes immediately. Seek medical attention if irritation develops.

Eye contact
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.

Inhalation
Move to fresh air. If breathing is difficult, administer artificial respiration or at any sign of loss of consciousness seek immediate medical attention.
**Ingestion**

Do not induce vomiting unless directed by medical authority. If a large amount is ingested, seek immediate medical attention. Rinse mouth out with water.

**Most important symptoms and effects, both acute and delayed**

Chronic health hazards: May cause damage to the following organs: kidneys, liver, respiratory, reproductive and central nervous systems.

**Indication of any immediate medical attention and special treatment needed**

There is no specific treatment regimen. Treatment of overexposure should be directed at the control of symptoms and the clinical condition of the patient.

### 5. FIRE-FIGHTING MEASURES

**Suitable extinguishing media**

Dry chemical, foam, or Carbon dioxide (CO2).

**Unsuitable extinguishing media**

Do not use water jet/stream.

**Specific hazards arising from the chemical**

Contents under pressure. Exposure to temperatures above 120°F may cause bursting. Flammable.

**Protective equipment and precautions for firefighters**

Wear NIOSH approved self-contained breathing apparatus with a full-face piece operated in a positive pressure demand mode with full body protective clothing when fighting fires. Shut off all sources of ignition. Use water spray to disperse vapor and cool fire exposed containers to prevent bursting. Treat as combustible petroleum distillates.

**Hazardous combustion products**

Oxides of carbon.

### 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures**

**Personal precautions**

Refer to Section 8 for proper Personal Protection.

**Methods and material for containment and cleaning up**

**Methods for containment and cleaning up**

Small Spill: Absorb liquid with absorbent material and transfer to a closed metal container. Large Spill: Eliminate all sources of ignition, (flares, flames, pilot lights, electrical spark) ventilate area, people without protective equipment should be excluded from the area of the spill. Prevent spill from entering drains, sewers, streams or other bodies of water. Stop spill at source, dike area to contain spill, absorb with absorbents, transfer to closed metal container.

**Waste Disposal**

Dispose of in accordance with federal, state and local regulations. Do not dump in sewers. Wrap container and place in trash collection, do not puncture, incinerate, or reuse container.

**RCRA Status**

Waste likely considered hazardous under RCRA; however, product should be fully characterized prior to disposal (40CFR261).
7. HANDLING AND STORAGE

Precautions for safe handling

Advice on safe handling and storage conditions
Protect from sunlight. Store in well ventilated place. Do not expose to temperatures exceeding 50°C/122°F. Pressurized container: Do not pierce or burn, even after use.

Other precautions
Flammable vapors may collect in low lying areas. Keep out of reach of children.

Incompatibility
Avoid strong oxidizing agents.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

NIOSH IDLH Immediately Dangerous to Life or Health

Appropriate engineering controls

Engineering Controls
Use only outdoors or in a well-ventilated area.

Individual protection measures, such as personal protective equipment

Eye/face protection
Wear safety glasses.

Skin and body protection
Wear chemical resistant gloves.

Respiratory protection
Wear NIOSH/MSHA approved respiratory protection if used in confined, poorly ventilated areas.

General Hygiene
Always observe good personal hygiene measures. Wash hands thoroughly after handling.

### 10. STABILITY AND REACTIVITY

**Reactivity**
If exposed to strong oxidizers, presents explosion hazard.

**Chemical stability**
Material is stable under normal conditions.

**Possibility of Hazardous Reactions**
None known.

**Conditions to avoid**
Heat, open flame, sparks and welding arcs.

**Hazardous Decomposition Products**
Carbon monoxide and carbon dioxide. Various hydrocarbons.

**Incompatibility**
Avoid strong oxidizing agents.

### 11. TOXICOLOGICAL INFORMATION

**Information on likely routes of exposure**

**Product Information**

**Inhalation**
Causes dizziness, excessive or prolonged exposure may cause unconsciousness.

**Eye contact**
Causes mild irritation.

**Skin Contact**
May cause localized defatting, dryness with prolonged or repeated contact.

**Ingestion**
Causes gastrointestinal irritation, nausea, diarrhea, vomiting, aspiration hazard.

**Information on toxicological effects**

**Medical condition aggravated**
Pre-existing conditions of the skin, liver, kidneys, CNS and respiratory system.

**Delayed and immediate effects as well as chronic effects from short and long-term exposure**

Chronic health hazards: May cause damage to the following organs: kidneys, liver, respiratory, reproductive and central nervous system.
Skin Sensitization
Serious eye damage/eye irritation
Skin corrosion/irritation
Respiratory sensitization
Germ cell mutagenicity
Carcinogenicity
Aspiration hazard

This product is not expected to cause skin sensitization.
Causes mild irritation.
May cause localized defatting, dryness with prolonged or repeated exposure.
Causes dizziness, excessive or prolonged exposure may cause unconsciousness.
No information available.
This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

12. ECOLOGICAL INFORMATION

Ecotoxicity
This material is toxic to aquatic life.

Persistence and degradability
Component or components of this product are not biodegradable.

Bioaccumulation
This product is not expected to bioaccumulate.

Soil Mobility
This product is mobile in soil

13. DISPOSAL CONSIDERATIONS

Waste treatment methods

Disposal considerations
Dispose of in accordance with local, federal and state regulations. Do not dump in sewers.
Wrap container and place in trash collection, do not puncture, incinerate, or reuse container.

RCRA Status
Waste likely considered hazardous under RCRA; however, product should be fully characterized prior to disposal (40CFR261).

14. TRANSPORT INFORMATION

DOT
UN/ID No. UN1950
UN proper shipping name Aerosols, Limited Quantity
Hazard Class/Division 2.1
Packing group Not applicable.

IATA
