1. PRODUCT AND COMPANY IDENTIFICATION

Product identifier
Product Name United 145 WEED LASER

Other means of identification
SDS# UNITED-145

Recommended use of the chemical
Recommended use Weed Killer Spray Non-Selective Spot Weed Killer
Uses Advised Against For institutional and industrial use only.

Details of the supplier of the safety data sheet
Company Name United Laboratories, Inc.
320 37th Avenue
St. Charles, IL 60174
www.unitedlabsinc.com
www.unitedlabsinc.ca

Emergency telephone number
Emergency Telephone 800-323-2594 (to reorder)
INFOTRAC 1-800-535-5053 (North America)
1-352-323-3500 (International)

2. HAZARDS IDENTIFICATION

Classification

OSHA Regulatory Status
This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Label elements

Emergency Overview

Danger

Hazard statements
Extremely flammable aerosol. Contains gas under pressure; may explode if heated. Causes skin and eye irritation. May be fatal if swallowed and enter airways. The product contains the following percentage of chemicals of unknown toxicity: 0%.
**Appearance** Brown  
**Physical state** Aerosol  
**Odor** Petroleum

**Prevention**  
Keep away from heat, sparks, open flames, and hot surfaces. No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use.

**Response**  
If on skin: Wash with plenty of water. If skin irritation occurs: Get medical attention. Take off contaminated clothing and wash before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing. If eye irritation persists: Get medical attention /advice. If swallowed: Immediately call a poison center or doctor. Do not induce vomiting.

**Storage**  
Store in well-ventilated place. Keep container tightly closed. Store Locked up. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.

**Disposal**  
Dispose of contents/container in accordance with local/regional/national/international regulations.

**Hazard(s) not otherwise classified (HNOC)**  
No information available.

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

*The exact percentage (concentration) of composition has been withheld as a trade secret.

### 4. FIRST AID MEASURES

**First aid measures**

**Skin Contact**  
Immediately wash with soap and water for 15 minutes. Remove contaminated clothing and shoes immediately. Seek medical attention if irritation develops.

**Eye contact**  
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops or

**Inhalation**  
Move to fresh air. If breathing is difficult, administer oxygen. If not breathing administer artificial respiration or at any sign of loss of consciousness seek immediate medical

**Ingestion**  
Contact physician; do not induce vomiting unless directed by medical authority.

**Most important symptoms and effects, both acute and delayed**

**Indication of any immediate medical attention and special treatment needed**

There is no specific treatment regimen. Treatment of overexposure should be directed at the control of symptoms and the clinical condition of the patient.

### 5. FIRE-FIGHTING MEASURES

**Suitable extinguishing media**  
Dry Chemical. Carbon dioxide. Alcohol Foam

**Unsuitable extinguishing media**  
Water spray/stream.

**Specific hazards arising from the chemical**  
Wear NIOSH and SCBA with a full face piece operated in a positive pressure demand mode with fully body protective clothing when fighting fires. Use water mist to keep material cool in fire situations. Keep away from sparks, open flames and hot surfaces. No smoking.

**Protective equipment and precautions for firefighters**  
Firefighters must use self-contained breathing apparatus and full protective clothing must be worn in case of fire.

**Specific Methods**  
Use standard firefighting procedures and consider the hazards of other involved materials. Keep away from sparks, open flames and hot surfaces. Do not spray on an open flame or other ignition source. No smoking.

**Hazardous Combustion Products**  
Oxides of carbon.

### 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures**

**Personal precautions**  
Refer to Section 8 for proper Personal Protective Equipment.

**Environmental precautions**

**Environmental precautions**  
None known.

**Methods and material for containment and cleaning up**

**Methods for containment**  
Prevent further leakage or spillage if safe to do so. Remove sources of ignition and heat.

**Methods for cleaning up**  
Use absorbent material (e.g. cloth, fleece). Sweep to clean. Dispose in accordance with local, state and federal laws. Small release may be wiped up with wiping material.

**Waste Disposal**  
Dispose of in accordance with federal, state and local regulations. Containers may be hazardous when empty.

**RCRA Status**  
Waste likely considered hazardous under RCRA, however product should be fully characterized prior to disposal (40 CFR 261).

### 7. HANDLING AND STORAGE

**Precautions for safe handling**

**Advice on safe handling**  
Pressurized container: Do not pierce or burn, even after use. Use only in well-ventilated areas. Keep out of reach of children.
Conditions for safe storage, including any incompatibilities
Containers of this material may be hazardous when empty since they retain product residues (vapors, liquid); observe all warning and precautions listed for product.

Storage Conditions
Store locked up. Pressurized container. Do not puncture, incinerate or crush. Protect from direct sunlight, exceeding 50°C/122°F. Store in well-ventilated area.

Incompatible materials
Some plastics.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidelines
No Exposure limits noted for ingredient(s).

NIOSH IDLH  Immediately Dangerous to Life or Health

Engineering Controls
Use only outdoors or in a well-ventilated area.

Individual protection measures, such as personal protective equipment

Eye/face protection
Wear safety glasses.

Skin and body protection
Wear chemical resistant gloves.

Respiratory protection
Not required with adequate ventilation.

General Hygiene
When using do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking.

9. PHYSICAL AND CHEMICAL PROPERTIES

10. STABILITY AND REACTIVITY

Reactivity
If exposed to strong oxidizers, presents explosion hazard.

Chemical stability
Material is stable at normal conditions.

Possibility of Hazardous Reactions
None known.

Conditions to avoid
Temperatures greater than 122°F and sources of ignition.

Incompatible materials
Some plastics.

Hazardous Decomposition Products
Oxides of carbon. Exposure to red hot surfaces may produce carbon monoxide.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure
Eyes, inhalation, ingestion and skin.

Product Information

Inhalation
May cause dizziness, headaches, excessive or prolonged exposure may cause unconsciousness.

Eye contact
Causes eye irritation, redness, itching or burning may indicate excessive exposure.

Skin Contact
May cause irritation, localized defatting. Redness and itching or burning sensation may indicate excessive exposure.

Ingestion
Causes gastrointestinal irritation, headaches, nausea and diarrhea.

Symptoms related to the physical, chemical and toxicological characteristics
Excessive exposure will aggravate pre-existing disorders of eyes, skin, respiratory, liver, kidney, cardiovascular system, pulmonary illnesses or central nervous system.

Information on toxicological effects
Acute toxicity

In eyes: redness, tearing and blurred vision may occur. On skin: defatting and dermatitis. If swallowed: abdominal irritation, nausea, vomiting, diarrhea and aspiration risk.

*Estimates for product may be based on additional component data not shown.

Skin/Eye irritation  May cause redness, tearing and blurred vision. May cause skin defatting and dermatitis.

Sensitization      This product is not expected to cause skin sensitization.

Germ cell mutagenicity No information available.

Carcinogenicity     This product is not considered to be a carcinogen by IARC, OSHA, ACGIH and NTP.

Chronic health hazards No information available.

Reproductive toxicity No information available.

STOT - single exposure No information available.

STOT - repeated exposure No Information available.

Aspiration hazard   No information available.

12. ECOLOGICAL INFORMATION

Ecotoxicity
This material is toxic to fish and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present or intertidal areas below mean high water tank. Drift and runoff may be hazardous aquatic organisms in water is adjacent to treated areas. This chemical has properties and characteristics associated with chemicals detected in groundwater.

Persistence and degradability
These products are not biodegradable.

Bioaccumulation
This product can bioaccumulate in aquatic organisms.

Soil Mobility
This product is mobile in soil. This use of this chemical in areas where soils are permeable, particularly where the water is shallow, may result in groundwater contamination.

Other ecological hazards
This material is toxic to aquatic life.

13. DISPOSAL CONSIDERATIONS

Waste treatment methods

Disposal Considerations
Dispose of in accordance with federal, state, and local regulations.

US RCRA Hazardous Waste
U List: Reference
Waste likely considered hazardous under RCRA, however product should be fully characterized prior to disposal (40 CFR 261).

Waste from residues/unused Products
Disposal should be in accordance with local, state and federal regulations.

14. TRANSPORT INFORMATION

This product meets the exception requirements of Section 173.306 as a limited quantity and may be shipped as a limited quantity. Until 12/31/2020, the “Consumer Commodity-ORM-D” marking may still be used in place of the new limited quantity diamond mark for packages of UN 1950 Aerosols. Limited quantities require the limited quantity diamond mark on cartons after 12/31/2020 and may be used now in place of the “Consumer Commodity ORM-D” marking and both may be displayed concurrently.
15. REGULATORY INFORMATION

International Inventories
This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label: CAUTION: Causes moderate eye irritation. Avoid contact with eyes, skin and clothing. Harmful if swallowed. FLAMMABLE: Contents under pressure. Do not use near fire, sparks and flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. EAP Reg. No. 44446-64.

TSCA - United States Toxic Substances Control Act Section 8(b) Inventory - Yes
DSL/NDSL - Canadian Domestic Substances List – Yes Non-Domestic Substances List - No

US Federal Regulations

SARA 313
Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product contains a chemical which is subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372. Naphthalene (91-20-3)
