1. PRODUCT AND COMPANY IDENTIFICATION

Product identifier
Product Name
United 159 VANILLA BLAST INSECTICIDE

Other means of identification
SDS#
UNITED-159

Recommended use of the chemical
And restrictions on use
Recommended use
Crawling Insect Killer.
Uses Advised Against
For industrial and institutional use only.

Details of the supplier of the safety data sheet
Company Name
United Laboratories, Inc.
320 37th Avenue
St. Charles, IL 60174
www.unitedlabsinc.com
www.unitedlabsinc.ca

Emergency telephone number
Company Phone Number 800-323-2594 (to reorder)
Emergency Telephone INFOTRAC 1-800-535-5053 (North America)
1-352-323-3500 (International)

2. HAZARDS IDENTIFICATION

Classification
OSHA Regulatory Status
This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

<table>

Label elements

Emergency Overview

Danger

Hazard statements
Extremely flammable aerosol. May be fatal if swallowed and enters airways. May cause an allergic skin reaction.
Prevention
Keep away from heat/sparks/open flames/hot surfaces. No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Use in a well-ventilated area. Avoid breathing gas. Contaminated work clothing must not be allowed out of the workplace.

Response
If swallowed: Immediately call a poison center or doctor. Do not induce vomiting. If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Avoid release to the environment. Wear protective gloves.

Storage
Store in a well-ventilated place. Store locked up. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.

Disposal
Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC)
Not classified.

Environmental hazards
Not classified.

4. FIRST AID MEASURES

First aid measures
Take off immediately all contaminated clothing. If you feel unwell, seek medical advice. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this SDS where possible. Keep victim warm and rested. Wash contaminated clothing before reuse.

Skin Contact
Remove/take off immediately all contaminated clothing. Get immediate medical advice / attention. For minor skin contact, avoid spreading material on unaffected skin. Wash contaminated clothing before reuse.

Eye contact
Rinse immediately with plenty of water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get immediate medical advice/attention.
Inhalation

Move to fresh air and keep at rest in a position comfortable for breathing. Artificial respiration and/or oxygen if necessary. Do not apply mouth-to-mouth resuscitation. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve of other proper respiratory medical device. Immediately consult a doctor/medical service.

Ingestion

Never give anything by mouth to an unconscious person. Rinse mouth.

Most important symptoms and effects, both acute and delayed

Eyes: Direct contact with eyes is likely irritating. Inhalation: Prolonged exposure: danger of damage to health through inhalation. Skin: Dermatitis. Skin rash/inflammation. May cause an allergic skin reaction. Ingestion: Swallowing the liquid may cause aspiration into the lungs with the risk of chemical pneumonitis. Risk of lung edema.

Indication of any immediate medical attention and special treatment needed

Treat symptomatically. Keep watching the victim. Symptoms may be delayed.

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media

Unsuitable extinguishing media  Do not use a water jet since it may cause the fire to spread.

Specific hazards arising from the chemical

Extremely flammable aerosol. Contains gas under pressure; may explode if heated. The product is non-reactive under normal conditions of use, storage and transport.

Protective equipment and precautions for firefighters

In case of fire and/or explosion do not breathe fumes. Move containers away from the fire area if this can be done without risk. Never direct water jet on liquid. As in any fire, wear self-contained breathing apparatus. Use water spray or fog for cooling exposed containers. Some of these materials, if spilled, may evaporate leaving a flammable residue.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal precautions

Consider initial downwind evacuation for at least 500 meters (1/3 miles). Evacuate unnecessary personnel. Stay upwind/keep distance from source. Gas is denser than air. May accumulate in low areas e.g., close to the ground. Vapors are heavier than air and may travel considerable distance to an ignition source and flash back to source of vapors.

Do not enter without appropriate protective equipment. Do not breathe gas/vapor. Do not touch spilled material. Fully encapsulating, vapor protective clothing should be worn for spills and leaks with no fire. Ventilate the area thoroughly, especially low lying areas (basements, work pits, etc.). Advice local authorities if considered necessary.

Environmental precautions

Avoid discharge to the environment. Do not contaminate water with the product or its container. Do not allow to enter drains or water courses.

Methods and material for containment and cleaning up
Methods for containment

Eliminate every possible source of ignition. No open flames, sparks, and no smoking. Keep combustibles (wood, paper, oil, etc.) away from spilled material. Form with air vapors (heavier than air) which stay on the floor. Gas is denser than air. May accumulate in low areas e.g., close to the ground. This material is classified as a water pollutant under the Clean Water Act and should be prevented from contaminating soil or from entering sewage and drainage systems which lead to waterways. Stop leak if safe to do so. Turn leaking containers leak-side up to prevent the escape of liquid. Move the cylinder to a safe and open area if the leak is irreparable. Use water spray to disperse the vapors. Isolate area until gas has dispersed.

Methods for cleaning up

Following product recovery, flush area with water. Clean thoroughly. Dispose as hazardous waste. Reference to other Section 13.

Waste Disposal

Dispose of in accordance with federal, state and local regulations. Containers may be hazardous when empty.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on safe handling

Vapors may form explosive mixture with air. Exclude sources of heat, sparks and open flame. Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any incandescent material. Do not smoke while handling source of ignition. Use only explosion-free electrical equipment with earth. Do not re-use empty containers. Obtain special instructions before use. Reduce/avoid exposure and/or contact. Do not contact with skin. Use only outdoors or in a well-ventilated area. Wear recommended personal protective equipment. Wash thoroughly after handling. Use good personal hygiene practices.

Conditions for safe storage, including any incompatibilities

Storage Conditions

Do not puncture, incinerate or crush. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Proper grounding procedures to avoid static electricity should be followed. Protect from sunlight and do not expose to temperatures exceeding 50°C/122°F. Pressurized container. Store locked up. Store in a cool area. Level Aerosol 3.

Incompatible materials

No information available.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Exposure Guidelines

No Exposure limits noted for ingredient(s).

NIOSH IDLH  Immediately Dangerous to Life or Health

Other Information

Vacated limits revoked by the Court of Appeals decision in AFL-CIO v. OSHA, 965 F.2d 962 (11th Cir., 1992).

Appropriate engineering controls

Engineering Controls

Provide sufficient air exchange and/or exhaust. Ventilation rates should be matched conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Ensure adequate ventilation, especially in confined areas.
Individual protection measures, such as personal protective equipment

Eye/face protection
Avoid contact with eyes. Safety goggles are recommended. Wear face shield.

Skin and body protection
Avoid contact with skin. Wear chemical protective equipment that is specifically recommended by the manufacturer. Use an impervious apron is recommended. It may provide little or no thermal protection. Use thermal protection is risk assessment indicates this is necessary.

Respiratory protection
If permissible levels are exceeded use NIOSH/MSHA mechanical filter / organic vapor cartridge or an air-supplied respirator.

General Hygiene
When using, do not eat, drink or smoke. Avoid contact with eyes. Avoid contact with skin. Keep away from food and drink. Use good personal hygiene practices. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Contaminated work clothing should not be allowed out of the workplace. Take off contaminated clothing and wash before reuse.

10. STABILITY AND REACTIVITY

Reactivity
This product is non-reactive under normal conditions of use, storage and transport.

Chemical stability
Risk of explosion. Risk of ignition. Unstable. The product is stable at normal handling and storage conditions.
Possibility of Hazardous Reactions
Hazardous polymerization does not occur.

Conditions to avoid
Heat. Open flame. Sparks. Incompatible materials. Aerosol containers are unstable at temperatures above 49°C. Avoid temperatures exceeding the flash point.

Hazardous Decomposition Products
Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Incompatibility
No additional information available.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure
Eyes, ingestion, inhalation and eyes.

Product Information

Inhalation
Prolonged exposure: danger of damage to health through inhalation.

Eye contact
Direct contact with the eyes is likely irritating.

Skin Contact
Dermatitis. Skin rash/inflammation. May cause an allergic skin reaction.

Ingestion
Swallowing the liquid may cause aspiration into the lungs with the risk of chemical pneumonitis. Risk of lung edema.

Information on toxicological effects

Acute toxicity
Dermal, not classified.

Sensitization
May cause an allergic skin reaction.

Germ cell mutagenicity
No information available.

Carcinogenicity
This product is not considered to be a carcinogen by IARC, ACGIH, NTP or OSHA.
IARC group-Permethrin-3
IARC group-Piperonyl Butoxide-3

Reproductive toxicity
No Information available.

STOT/ single and repeated exposure
No information available.

Aspiration hazard
May be fatal if swallowed and enters airways.

Chronic effects
Concentrating vapors and inhaling material can lead to oxygen deprivation, loss of brain function and potential loss of life.

12. ECOLOGICAL INFORMATION

Ecotoxicity
No information available.

Persistence and degradability
Readily biodegradable in water. Absorbs into the soil.
### Bioaccumulation
High potential for bioaccumulation (Log Kow>5).

### Soil Mobility
This product is mobile in soil.

### Other adverse effects
None known.

### 13. DISPOSAL CONSIDERATIONS

#### Waste treatment methods
Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate or crush. This material and its container must be disposed of as hazardous waste. Incinerate the material under controlled conditions in an approved incinerator. Must be incinerated in a suitable incineration plant holding a permit delivered by the competent authorities. Do not allow into drains or water courses or dispose of where ground or surface waters may be affected.

#### Disposal of wastes
Containers or internal liners coming from a container, having contained this product are also considered as hazardous wastes. This material and its container must be disposed of in a safe manner. Empty containers should be taken for recycle, recovery or waste in accordance with federal, state and local laws and regulations. Handle unclean empty containers as full ones.

### 14. TRANSPORT INFORMATION

This product meets the exception requirements of Section 173.306 as a limited quantity and may be shipped as a limited quantity. Until 12/31/2020, the "Consumer Commodity-ORM-D" marking may still be used in place of the new limited quantity diamond mark for packages of UN 1950 Aerosols. Limited quantities require the limited quantity diamond mark on cartons after 12/31/2020 and may be used now in place of the “Consumer Commodity ORM-D” marking and both may be displayed concurrently.

15. REGULATORY INFORMATION

International Inventories
TSCA  Complies
DSL/NDSL  Complies

Legend:
TSCA - United States Toxic Substances Control Act Section 8(b) Inventory
DSL/NDSL - Canadian Domestic Substances List/Non-Domestic Substances List

US Federal Regulations

SARA 313
Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does contain a chemical or chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372. Piperonyl Butoxide (51-03-6) – 0.1.1. Tetramethrin (7696-12-0) – 0.1-1. Permethrin (52645-53-1) – 0.1-1.

SARA 311/312 Hazard Categories
- Acute health hazard  Yes
- Chronic Health Hazard  Yes
- Fire hazard  Yes
- Sudden release of pressure hazard  No
- Reactive Hazard  No

CERCLA
This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

US State Regulations – California Proposition 65
This product does not contain any Proposition 65 chemicals

FIFRA Information
This chemical is a pesticide product registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide chemicals. The hazard information required on the pesticide label also includes other important information, including directions for use. CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Harmful if swallowed. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking, and chewing gum, using tobacco or using the toilet.

16. OTHER INFORMATION

Training advice: Normal use of this product shall imply use in accordance with the instructions on the packaging.
