1. PRODUCT AND COMPANY IDENTIFICATION

Product identifier
Product Name United 166 POWER UP

Other means of identification
SDS# UNITED 166

Recommended use of the chemical
And restrictions on use
Recommended use Foaming, No Rinse Chiller Coil Cleaner.
Uses Advised Against For industrial and institutional use only.

Details of the supplier of the safety data sheet
Company Name United Laboratories, Inc.
320 37th Avenue
St. Charles, IL 60174
www.unitedlabsinc.com
www.unitedlabsinc.ca

Emergency telephone number
Emergency Telephone 800-323-2594 (to reorder)
INFOTRAC 1-800-535-5053 (North America)
1-352-323-3500 (International)

2. HAZARDS IDENTIFICATION

Classification

OSHA Regulatory Status
This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

<table>
<thead>
<tr>
<th>Flammable Aerosol</th>
<th>Category 2</th>

Label elements

Emergency Overview

Warning

Hazard statements
Flammable aerosol. Contains gas under pressure. May explode if heated. Causes eye irritation.

This product contains 0% of chemicals of unknown toxicity.
Appearance Clear colorless aerosol  
Physical state Liquid Aerosol  
Odor Citrus scent

**Precautionary Statements**

**Prevention**
Keep away from heat/sparks/open flames/hot surfaces. No smoking. Do not spray on an open flame or other ignition source. Pressurized container. Do not pierce or burn even after use. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Store in a well-ventilated place. Wash thoroughly after handling. If in eyes: rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists; get medical attention.

**Storage**
Store in a well-ventilated place. Keep container tightly closed. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.

**Disposal**
Dispose of contents/container in accordance with local/regional/national/international regulations.

**Hazard(s) not otherwise classified (HNOC)**
None known.

**Environmental hazards**
None known.

### 4. FIRST AID MEASURES

**First aid measures**

**Eye Contact**
Remove contact lenses. Flush with water for at least 15 minutes. See a physician if irritation persists.

**Skin Contact**
Immediately wash with soap and water for 15 minutes. Remove contaminated clothing and shoes immediately. Seek attention if irritation develops.

**Inhalation**
Move to fresh air. If breathing is difficult, administer oxygen. If not breathing administer artificial respiration or at any sign of loss of consciousness seek immediate medical attention.
Ingestion
Rinse mouth with water. Do not induce vomiting unless directed by medical authority. Seek medical attention if irritation persists.

Most important symptoms and effects, both acute and delayed
May cause serious eye irritation. Symptoms may include burning sensation, redness and pain. Skin irritation. May cause redness or rash. Breathing vapors and mists may cause mucous membrane and respiratory irritation like headache, dizziness, drowsiness. Intentional misuse by concentrating and inhaling contents may be harmful or fatal. Exposure by ingestion is unlikely since an aerosol, but if occurs, may cause gastrointestinal irritation, nausea, vomiting, or dizziness.

Indication of any immediate medical attention and special treatment needed
Provide general supportive measures and treat symptomatically. There is no specific treatment regimen. Acute Health Hazards: Eyes: redness, tearing, blurred vision. Chronic Health Hazards: None known.

General information
Make sure that medical personnel is aware of the materials involved, and take precautions to Protect themselves. Wash contaminated clothing before reuse.

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media
Use appropriate media for surrounding fire.

Unsuitable extinguishing media
None known.

Specific hazards arising from the chemical
Contents under pressure. Pressurized container may explode when exposed to heat or flame.

Protective equipment and precautions for firefighters
Firefighter must use standard protective equipment including flame retardant coat, helmet with face shield, sloes rubber boots, and in an enclosed spaces, SCBA. Move containers from fire area if you can do so without risk. Containers should be cooled with water to prevent vapor pressure build up.

Specific methods
Keep away from heat/sparks/open flames/hot surfaces. No smoking.

General fire hazards
Flammable aerosol.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal precautions
Keep unnecessary personnel away. Keep people away from and upwind or spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe gas. Do not tough damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. For personal protection, see Section 8 of the SDS.

Environmental precautions
This material is not expected to be toxic to aquatic life.
Methods and material for containment and cleaning up

Methods for containment
Refer to attached SDS and/or instructions for use. Eliminate all ignition sources (no smoking, flares, sparks or flames in immediate area). Keep combustibles (wood, paper, oil etc.) away from spilled material. Many gases are heavier than air and will spread along ground and collect in low confined area (sewers, basements, tanks). Keep out of low areas. Stop leak if you can do at no risk.

Methods for cleaning up
Use non-combustible material like vermiculite, sand or earth on spill, sweep to clean. Dispose in accordance with local, state, and federal laws. Small releases may be wiped up with wiping material. For waste disposal, see Section 13 of the SDS. Do not flame cut, braze, or weld. Empty container very hazardous.

RCRA Status
Product should be fully characterized prior to disposal (40 CFR 261).

<table>
<thead>
<tr>
<th>7. HANDLING AND STORAGE</th>
</tr>
</thead>
</table>

Precautions for safe handling
Advice on safe handling
Do not handle until all safety precautions have been read and understood. Pressurized container: do not pierce or burn, even after use. Do not spray on a naked flame or any other incandescent material. Do not smoke while using. Do not weld, drill, grind, cut or expose containers to heat, flame, sparks, or other sources of ignition. Do not re-use empty containers. Do not breathe gas. Do not get this material in contact with eyes. Avoid prolonged exposure. Do not eat or smoke when using product. Do not swallow. Wear appropriate personal protective equipment. Wash thoroughly after handling. Avoid release to the environment. Wash contaminated clothing before reuse.

Conditions for safe storage, including any incompatibilities
Storage Conditions
Keep tightly closed in a dry and cool place. Do not puncture, incinerate or crush. Keep away from all food. Keep away from heat and sources of ignition. Avoid exposure to direct sunlight and do not expose to temperatures exceeding 50°C/122°F. Keep in properly labeled containers. Store in ventilated area.

Incompatible materials
Store away from incompatible materials (see section 10) – Strong acids.

</table>
**Appropriate engineering controls**

**Engineering Controls**
Good ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits, if exposure limits have not been established, maintain airborne levels to an acceptable level. Ensure adequate ventilation, especially in confined areas.

**Individual protection measures, such as personal protective equipment**

- **Eye/face protection**: Wear safety glasses. Avoid contact with eyes.
- **Skin and body protection**: None needed
- **Respiratory protection**: Not required with adequate ventilation.
- **General Hygiene**: When using this material, do not eat, drink or smoke. Wash hands and clothing in contact with product after use.

### 10. STABILITY AND REACTIVITY

**Reactivity**
Product is stable and non-reactive under normal conditions.
Chemical stability
Material is stable under normal conditions.

Possibility of Hazardous Reactions
Hazardous polymerization does not occur.

Conditions to avoid & Incompatible materials
Temperatures greater than 122°F/50°C may cause bursting. Avoid strong acids.

Hazardous Decomposition Products
Oxides of carbon.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Product Information

Inhalation
Prolonged inhalation may cause dizziness, headaches upon long term exposure.

Eye contact
Causes eye irritation, may cause mild burns if left untreated.

Skin Contact
May cause irritation, dermatitis with prolonged exposure.

Ingestion
Causes gastrointestinal irritation, headaches, nausea, diarrhea, abdominal cramps.

Information on toxicological effects
Not established.

Medical condition aggravated:
Asthma, bronchitis, emphysema and other lung diseases and chronic nose, sinus or throat conditions. Skin irritation may be aggravated in individuals with existing skin disorders.

Acute Health Hazards:
Eyes – redness, tearing, blurred vision.

Chronic Health Hazards:
None known.

Symptoms related to the physical, Chemical and toxicological characteristics
Symptoms may include stinging, tearing, redness, swelling and blurred vision. Skin irritation can cause redness and pain.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Sensitization
None known.

Germ cell mutagenicity
Not expected to be hazardous by OSHA criteria or WHMIs criteria.

Carcinogenicity
This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA. Not expected to be hazardous by WHMIS criteria.

X - Present

Reproductive toxicity
Not expected to be hazardous by OSHA criteria.

STOT – single exposure
Not classified.

STOT – repeated exposure
Not classified.
12. ECOLOGICAL INFORMATION

**Ecotoxicity**
Not determined.

**Persistence and degradability**
No Information available.

**Bioaccumulation**
This product is not expected to bioaccumulate.

**Other adverse effects**
No other adverse environmental effects are expected from this component.

13. DISPOSAL CONSIDERATIONS

**Waste treatment methods**

**Disposal considerations**
Dispose of contents/container in accordance with local/regional/national/international regulations. Contents under pressure. Do not puncture, incinerate or crush Empty container very hazardous.

**Waste from residues/unused products**
Dispose of in accordance with local regulations. Empty containers or liners may remain some product residues. This material and its container must be disposed of in a safe manner.

**Contaminated packaging**
Empty containers should be disposed of in accordance with local regulations. Follow label warnings even after container is emptied, as some may retain residue. Do not re-use emptied containers. RCRA status: Product should be fully characterized prior to disposal (40 CFR 261)

14. TRANSPORT INFORMATION

This product meets the exception requirements of Section 173.306 as a limited quantity and may be shipped as a limited quantity. Until 12/31/2020, the "Consumer Commodity-ORM-D" marking may still be used in place of the new limited quantity diamond mark for packages of UN 1950 Aerosols. Limited quantities require the limited quantity diamond mark on cartons after 12/31/20 and may be used now in place of the "Consumer Commodity ORM-D" marking and both may be displayed concurrently.
