1. PRODUCT AND COMPANY IDENTIFICATION

Product identifier
Product Name United 168 TEF-TEK High-Tech Teflon® Lube

Other means of identification
SDS# UNITED-168

Recommended use of the chemical
And restrictions on use
Recommended use Lubricant
Uses Advised Against For industrial and institutional use only.

Details of the supplier of the safety data sheet
Company Name United Laboratories, Inc.
320 37th Avenue
St. Charles, IL 60174
www.unitedlabsinc.com

Emergency telephone number
Emergency Telephone 800-323-2594 (to reorder)
INFOTRAC 1-800-535-5053 (North America)
1-352-323-3500 (International)

2. HAZARDS IDENTIFICATION

Classification

OSHA Regulatory Status
This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Label elements

Emergency Overview

Danger

Hazard statements
Extremely flammable aerosol. Contains gas under pressure; may explode if heated. Causes skin and eye irritation. May cause drowsiness or dizziness. May be fatal if swallowed and enters airways.

This product contains the following percentage of chemicals of unknown toxicity: 0.0%.
Prevention
Keep away from heat/sparks/open flames/hot surfaces. No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Wash thoroughly after handling. Wear protective gloves. Store in a well-ventilated area.

Response
If skin irritation occurs: Get medical attention. Take off contaminated clothing and wash before use. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and able to do so. Continue rinsing. If eye irritation persists: Get medical advice/attention. Avoid eye irritation persists: Get medical advice or attention. Avoid breathing fumes, mist, vapors, and spray. Use only outdoors or in a well ventilated area. If inhaled: Remove person to fresh air and keep comfortable for breathing. Call poison center or doctor if you feel unwell. If swallowed: Immediately call poison center or physician. Do not induce vomiting.

Storage
Store locked up. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Keep container tightly closed. Store in a well-ventilated place.

Disposal
Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC)
None known.

*The exact percentage (concentration) of composition has been withheld as a trade secret.

4. FIRST AID MEASURES

First aid measures

Skin Contact
If on skin: Wash with plenty of water. If skin irritation occurs; get medical attention.

Eye contact
If in eyes: Rinse cautiously with water several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.

Inhalation
If inhaled: Remove individual to fresh air and keep comfortable for breathing. If breathing is difficult or unconscious, administer oxygen. If not breathing administer artificial respiration. Seek medical attention if irritation persists.
Ingestion

If swallowed: Immediately call a poison center or doctor. Do not induce vomiting. Get medical advice or attention.

Most important symptoms and effects, both acute and delayed

Chronic health hazards: May cause damage to the following organs: lungs, brain, and respiratory system.

Indication of any immediate medical attention and special treatment needed

If ingested, material may be aspirated into the lungs and cause chemical pneumonitis. Treat appropriately.

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media

Foam. Carbon Dioxide and Dry Chemical.

Unsuitable extinguishing media

Water spray/stream.

Specific hazards arising from the chemical

Keep away from heat/sparks/open flames/hot surfaces. No smoking. Do not spray on an open flame or other ignition source.

Protective equipment and precautions for firefighters

Firefighters must wear full protective clothing and NIOSH self-contained breathing apparatus with a full-face piece operated in a positive pressure demand. Use water mist to keep material cool in fire situations.

Specific Methods

Use standard firefighting procedures and consider the hazards in fire situations.

Hazardous Combustion Products

Oxides of carbon, various hydrocarbons.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal precautions

Keep unnecessary personnel away. For personal protection see Section 8 of the SDS.

Methods and material for containment and cleaning up

Methods for cleaning up

Spill: Absorb spill with non-combustible material, such as, vermiculite, sand or earth. Do not allow to drain into sewers or storm drains. Dispose of in accordance with federal, state and local regulations.

RCRA Status

Waste likely considered hazardous under RCRA, however product should be fully characterized prior to disposal (40 CFR 261).

Waste disposal

Dispose of in accordance with local, state and federal regulations. Do not dump in sewers.

7. HANDLING AND STORAGE

Precautions for safe handling
Advice on safe handling
Protect from sunlight. Store in a well-ventilated place. Do not expose to temperatures exceeding 50°C/122°F.

Conditions for safe storage, including any incompatibilities

Storage Conditions
Do not expose to temperatures, exceeding 50°C/122°F. Store in well-ventilated area. Keep out of reach of children.

Incompatible materials
Strong acids, strong oxidizing agents (chlorine and other halogens, chromates, perchlorates and oxygen).

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidelines
No Exposure limits noted for ingredient(s).

<table>

<td>Not Established</td>
</tr>
</tbody>
</table>

Appropriate engineering controls

Engineering Controls
Material is heavier than air. Material may concentrate in low lying areas. Normal, forced ventilation required to meet TLV requirements. Local exhaust ventilation is generally preferred.

Individual protection measures, such as personal protective equipment

Eye/face protection
Wear safety glasses / safety goggles.

Skin and body protection
Wear chemical resistant gloves.

Respiratory protection
If exposure levels are exceeded then organic vapor cartridge respirator or SCBA will be needed.

General Hygiene
Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking.

10. STABILITY AND REACTIVITY

Reactivity
None known.

Chemical stability
Material is stable at normal conditions.

Possibility of Hazardous Reactions
None known.

Conditions to avoid
Avoid temperatures greater than 122°F and sources of ignition.

Hazardous Decomposition Products
Oxides of Carbon and other decomposition products.

Incompatibility
Strong acids, strong oxidizing agents (chlorine and other halogens, chromates, perchlorates and oxygen).

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Product Information

Inhalation
May cause dizziness. No hazards with normal use.

Eye contact
May cause burning, irritation, redness, tearing.

Skin Contact
Irritation likely, redness and pain. May cause localized defatting, blistering with prolonged skin contact. May be absorbed through the skin.

Ingestion
No toxicity expected with normal use.

Information on toxicological effects

Acute toxicity

Skin/Eye irritation
Skin: Defatting and dermatitis. May cause burning, irritation, redness, tearing to eyes.

Ingestion
No toxicity expected with normal use.

Respiratory
Anesthetic, irritation, Central Nervous System depression.

Carcinogenicity
This product is not considered to be a carcinogen by IARC, ACGIH, NTP or OSHA.

Chronic effects
May cause damage to the following organs: lungs, brain, and respiratory system.
12. ECOLOGICAL INFORMATION

Persistence and degradability
This product is biodegradable.

Bioaccumulation
This product is not expected to bioaccumulate.

Soil Mobility
This product is mobile in soil.

Other adverse effects
This material is toxic to aquatic life.

13. DISPOSAL CONSIDERATIONS

Waste treatment methods

Disposal of wastes
Disposal should be in accordance with applicable regional, national and local laws and regulations.

US RCRA Status
Waste likely considered hazardous under RCRA, however product should be fully characterized prior to disposal (40 CFR 261).

Waste from residues/unused products
Dispose in accordance with local, state and federal regulations.

14. TRANSPORT INFORMATION

This product meets the exception requirements of Section 173.306 as a limited quantity and may be shipped as a limited quantity. Until 12/31/2020, the "Consumer Commodity-ORM-D" marking may still be used in place of the new limited quantity diamond mark for packages of UN 1950 Aerosols. Limited quantities require the limited quantity diamond mark on cartons after 12/31/2020 and may be used now in place of the "Consumer Commodity ORM-D" marking and both may be displayed concurrently.

DOT

UN/ID No. UN1950
Proper shipping name Aerosols, Limited Quantity

15. REGULATORY INFORMATION

International Inventories
All components are listed or exempted. - Yes*

Legend:
TSCA - United States Toxic Substances Control Act Section 8(b) Inventory - Yes*

*A Yes indicates that all components of this product comply with the inventory requirements administered by the governing county(s). A No indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).

US Federal Regulations

SARA 311/312 Hazard Categories:
Superfund Amendments and Reauthorization Act of 1986

- Acute health hazard: Yes
- Delayed hazard: Yes
- Fire hazard: Yes
- Sudden release of pressure hazard: No
- Reactive Hazard: No

SARA 313 (TRI reporting)
None Known.

CERCLA
This material, as supplied, does not contain a substance regulated as a hazardous substance under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355).

US State Regulations: California Proposition 65: None.
