1. PRODUCT AND COMPANY IDENTIFICATION

Product identifier
Product Name
United 169 BLACK KNIGHT

Other means of identification
SDS#
UNITED-169

Recommended use of the chemical and restrictions on use
Recommended Use
Dry Moly Lube.
Uses Advised Against
For industrial and institutional use only.

Details of the supplier of the safety data sheet
Supplier Address
United Laboratories, Inc.
320 37th Avenue
St. Charles, IL 60174
www.unitedlabsinc.com
www.unitedlabsinc.ca

Emergency telephone number
Company Phone Number
800-323-2594 (to reorder)

Label elements

Emergency Overview

Danger
Hazard statements
Extremely flammable aerosol.
Harmful if swallowed.
May cause genetic defects.
May cause cancer
May damage fertility or the unborn child
May cause damage to organs through prolonged or repeated exposure.

Precautionary Statements-Prevention
Do not handle until all safety precautions have been read and understood. Obtain special instructions before use. Keep away from heat/sparks/open flames/hot surfaces. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn-pressurized container. Do not breathe gas. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection.

Precautionary Statements-Response
If swallowed. Contact poison center/doctor if you feel unwell. If exposed: Call poison center/doctor. Specific treatment (see label). Rinse mouth.

Precautionary -Storage
Store locked up. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.

Precautionary -Disposal
Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazards not otherwise classified (HNOC)
Other Information
None Known

Supplemental Information
21.27% of the mixture consists of component(s) of unknown acute oral toxicity. 90.49% of the mixture consists of component(s) of unknown acute or long-term hazards to the aquatic environment.

### 4. FIRST AID MEASURES
First aid measures

**General advice**
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. If exposed or concerned: Get medical attention.

**Skin Contact**
Wash off with soap and water. Get medical attention if irritation develops or persists.

**Eye contact**
Rinse with water. Get medical attention if irritation develops and persists.

**Inhalation**
If symptoms develop move individual to fresh air. Get medical attention if symptoms develop or persist.

**Ingestion**
IF SWALLOWED: call poison center or physician if you feel unwell. Rinse mouth.

**Most important symptoms and effects, both acute and delayed**

**Symptoms**
Prolonged exposure may cause chronic effect.

**Indication of any immediate medical attention and special treatment needed**

**Note to physicians**
Provide general supportive measures and treat symptomatically. In case of shortness of breath, give oxygen. Keep individual warm and under observation. Symptoms may be delayed.

5. FIRE-FIGHTING MEASURES

**Suitable extinguishing media**
Dry chemical powder. Water. Carbon Dioxide (CO2).

**Unsuitable extinguishing media**
None known.

**Specific hazards arising from the chemical**
Contents under pressure. Pressurized container may explode when exposed to heat or flame.

**Protective equipment and precautions for firefighters**
Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. Move containers from fire area if you can do so without risk. Use water spray to cool unopened containers. Containers should be cooled with water to prevent vapor pressure build up. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not withdraw and let fire burn out.

**Specific Methods**
Use standard firefighting procedures and consider the hazards of other involved materials. Move containers to fire area if you can do so without risk. Cool containers that were exposed to flames, with water until well after the fire is out. In the event of fire and/or explosion do not breathe fumes.

**General Fire Hazard**
Extremely flammable aerosol.

6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures**
### 7. HANDLING AND STORAGE

#### Precautions for safe handling

**Advice on safe handling**

- Obtain special instructions before use. Do not pierce or burn, even after use. Pressurized container. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not drill, grind, cut or expose containers to heat, flame, sparks or other sources of ignition. Ground and bond containers when transferring material. No smoking. Use only in a well-ventilated area. Do not breathe gas. Do not taste or swallow. Avoid contact during pregnancy/while nursing. Wear appropriate personal protective equipment. Do not re-use empty containers. Avoid release into the environment. Do not empty into drains.

#### Conditions for safe storage, including any incompatibilities

**Storage Conditions**

- Store locked up. Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C/122°F. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. This material can accumulate static charge which may cause spark and become an ignition source. Keeping in a cool place is recommended.

**Incompatible materials**

- Store away from incompatible materials, see Section 10 of the SDS. Level 1 Aerosol.

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Control parameters

**Exposure Guidelines/personal protection**

Exposure guidelines noted for ingredient(s).

### Exposure guidelines

**Skin designation**  
**California / Minnesota/Tennessee and ACGIH/NIOSH**

Can be absorbed through the skin  
Methanol (67-56-1) **  
Toluene (108-88-3)**

### Appropriate engineering controls

**Engineering Controls**  
Good general ventilation should be used (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

### Individual protection measures, such as personal protective equipment

**Eye/face protection**  
Wear safety glasses with side shields (or goggles).

**Skin and body protection**  
Wear impervious protective clothing. Wear protective gloves to prevent skin contact.

**Respiratory protection**  
If permissible levels are exceeded use NIOSH mechanical filter/organic vapor cartridge or an air-supplied respirator.

**Thermal hazards**  
Wear appropriate thermal protective clothing, when necessary.

**General Hygiene**  
When using, do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

10. STABILITY AND REACTIVITY

Reactivity
The product is stable and not-reactive under normal conditions of use, storage and transport.

Chemical stability
Stable under recommended storage conditions.

Possibility of Hazardous Reactions
Hazardous polymerization does not occur.

Conditions to avoid
Avoid temperatures exceeding the flash point.

Incompatible materials
Hazardous Decomposition Products
No known hazardous decomposition products.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

No other adverse environmental effects are expected from this component.

13. DISPOSAL CONSIDERATIONS

Disposal Instructions
Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, crush or incinerate. Do not allow to drain into water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/International regulations.

Local disposal regulations
Dispose contents/container in accordance with local/regional regulations

Hazardous waste code
The user, the producer and waste disposal company should have assigned the waste code.

US RCRA Hazardous Waste U List:
Methanol (67-56-1) U154, Methylene Chloride (75-09-2) U080, Toluene (108-88-3), U220.

Waste from unused/residues Product
Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner. (See disposal instructions).

Contaminated Packaging
Emptied containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied. Do not re-use empty containers.

14. TRANSPORT INFORMATION

This product meets the exception requirements of Section 173.306 as a limited quantity and may be shipped as a limited quantity. Until 12/31/2020, the “Consumer Commodity – ORM-D” marking may still be used in place of the new limited quantity diamond mark for packages of UN 1950 Aerosols. Limited quantities require the limited quantity diamond mark on cartons after 12/31/2020 and may be used now in place of the “Consumer Commodity ORM-D” marking and both may be displayed concurrently.
