3. HAZARDS IDENTIFICATION

Eyes: Slightly irritating but does not injure eye tissue. Skin: Low order of toxicity. Frequent or prolonged contact may irritate and cause dermatitis. May aggravate existing dermatitis condition. Inhalation: High vapor concentrations may be irritating to the eyes and the respiratory tract. May cause headaches, dizziness, anesthesia, drowsiness, unconsciousness, and other central nervous system effects including death. Ingestion: May cause nausea, vomiting, and or stomach discomfort. Possible aspiration hazard, may cause inflammation of the lungs.

4. FIRST AID MEASURES

Eyes: Flush with plenty of water for at least 15 minutes. Call a physician. Skin: Wash with soap and water. If irritation persists, call a physician. Inhalation: Remove to fresh air. Apply artificial respiration if necessary and call a physician immediately. Ingestion: DO NOT induce vomiting. Call a physician immediately. Aspiration into lungs during vomiting may cause chemical pneumonitis.

5. FIRE FIGHTING MEASURES

Flash Point (TCC): None Explosive Limits: Lower (LEL): 1.0 Upper (UEL): 6.0
Flame Projection (Aerosol): Extremely flammable per 16 CFR 1500.3 and 1500.45.
Hazardous Products of Combustion: When strongly heated, as in a fire, this product may produce oxides of carbon. Fire and Explosion Hazards: Exposure to temperature above 120°F/48°C may cause bursting. This product releases flammable vapors below ambient temperatures and readily forms flammable mixtures with air exposed to an ignition source. Extinguishing Media: Dry chemical, Carbon dioxide, Halogenated extinguishing agent. Fire Fighting Instructions: Wear self-contained breathing apparatus w/full protective clothing in chemical fires. Cool fire exposed containers with water to prevent pressure build up.
6. ACCIDENTAL RELEASE MEASURES

Small Spills: Remove sources of ignition and ventilate area. Soak up with an inert absorbent and place in designated disposal container. Wash area thoroughly.

Large Spills: Remove sources of ignition and ventilate area. Soak up with an inert absorbent and place in designated disposal container. Wash area thoroughly.

7. HANDLING AND STORAGE

Keep away from heat, sparks, and flame. Use with adequate ventilation. Do not puncture or incinerate containers. Store as NFPA 30B Level 3 Aerosol.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Eyes: Safety glasses are recommended.

Skin: Chemical resistant gloves are recommended.

Respiratory: None required if good ventilation is maintained.

Engineering Controls: Mechanical ventilation recommended when handling in enclosed/tight spaces.
