1. PRODUCT AND COMPANY IDENTIFICATION

Product Identifier
Product Name United 258 STAT-TABS

Other means of identification
SDS # UNITED-258
Registration Number(s) EPA reg. No. 71847-6-9250
UN/ID No UN3077

Recommended use of the chemical and restrictions on use
Recommended Use Disinfectant Tablets
Uses Advised Against For industrial and institutional use only.

Details of the supplier of the safety data sheet
Supplier Address United Laboratories, Inc.
320 37th Avenue
St. Charles, IL 60174
www.unitedlabsinc.com
www.unitedlabsinc.ca

Emergency Telephone Number
Company Phone Number 800-323-2594 (to reorder)
Emergency Telephone (24 hr) INFOTRAC 1-800-535-5053 (North America)
1-352-323-3500 (International)

2. HAZARDS IDENTIFICATION

Appearance White solid
Physical State Solid
Odor Slight chlorine-like

Classification
Eye irritation Category 2A
STOT SE Category 3

Signal Word
Warning

Hazard Statements
Causes serious eye irritation. May cause respiratory irritation.
Precautionary Statements - Prevention
Do not breathe dust. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves, protective clothing, eye protection, face protection.

Precautionary Statements - Response
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a poison center, or doctor if you feel unwell.
IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

Precautionary Statements - Storage
Store locked up. Store in a well-ventilated place. Keep container tightly closed.

Precautionary Statements - Disposal
Dispose of contents/container to comply with local, regional, national, and international regulations.

Other hazards
Direct contact with wet material or moist skin may cause severe irritation, pain, and possibly burns. Dry material is less irritating than wet material. This material is not a skin sensitizer.

**If Chemical Name/CAS No is "proprietary" and/or Weight-% is listed as a range, the specific chemical identity and/or percentage of composition has been withheld as a trade secret.**

4. FIRST-AID MEASURES

First Aid Measures

Eye Contact
Rinse immediately with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical advice/attention.

Skin Contact
Wash with water and soap. If skin irritation or rash occurs: Get medical advice/attention.

Inhalation
Remove to fresh air and keep at rest in a position comfortable for breathing. Get medical advice/attention.

Ingestion
Call a physician immediately. Rinse mouth with water. Drink plenty of water. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person.

Most important symptoms and effects
Symptoms

Harmful if swallowed. Causes skin irritation. Causes serious eye damage. May cause respiratory irritation.

Inhalation: This material contained in this tablet in solid form is not expected to produce respiratory effects. Particles of respiratory size are generally not encountered. The respirable fraction for the tablet active ingredient is typically less than 0.1% by weight for the granular and extra granular grades. If it is ground or otherwise in a powdered form, effects similar to a corrosive substance may occur. May cause severe irritation of the respiratory tract with coughing, choking, pain and possibly burns of the mucous membranes. If significant or prolonged exposure occurs, pulmonary edema may develop, either immediately or more often within a period of 5-72 hours. The symptoms may include tightness in the chest, dyspnea, frothy sputum, cyanosis, and dizziness. Physical findings may include moist rales, low blood pressure and high pulse pressure. Severe cases may be fatal.

Skin contact: Direct contact with wet material or most skin may cause severe irritation, pain, and possibly burns. Dry material is less irritating than wet material. This material is not a skin sensitizer.

Eye contact: This material is irritating to the eye. Direct contact may cause severe irritation, pain and burns, possibly severe, and permanent damage including blindness. The degree of injury depends on the concentration and duration of contact.

Ingestion: Not expected to present a significant ingestion hazard under anticipated conditions of normal use. Harmful if swallowed. Ingestion may cause immediate pain and severe burns of the mucous membranes. There may be discoloration of the tissues. Swallowing and speech may be difficult at first and then almost impossible. The effects on the esophagus and gastrointestinal tract may range from irritation to severe corrosion. Edema of the epiglottis and shock may occur.

Indication of any immediate medical attention and special treatment needed

Notes to Physician

Symptoms may be delayed. Keep watching the victim. Probably mucosal damage may contraindicate to the use of gastric lavage.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Water. Foam. Adapt extinguishing media to the environment.

Unsuitable Extinguishing Media

Use water only; no dry chemical, CO2 or Halon.

Specific Hazards Arising from the Chemical

Protective equipment and precautions for firefighters

Exercise caution when fighting any chemical fire. Do not enter fire area without proper protective equipment, including respiratory protection. Standard protective clothing and equipment, SCBA, for firefighters.

Specific methods

Using a 10% solution of sodium carbonate, thoroughly decontaminate firefighting equipment including all firefighting wearing apparel after the incident.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures
Personal Precautions
Use personal protective equipment as required. Evacuate unnecessary personnel. Ventilate the area thoroughly, especially low lying areas (basements, work pits, etc.) Protective goggles. Gloves. Avoid contact with skin and eyes. Prevent dust cloud formation.

Environmental precautions
Protective equipment: Equipment clean-up crew with proper protection. Stop leak if safe to do so. Stop release. Ventilate area. For further information refer to Section 8 of this SDS.

Methods and material for containment and cleaning up
Collect spillage if safe to do so. Recover mechanically the product. Do not add water to spilled material. Using clean dedicated equipment, sweep and scoop all spilled material, contaminated soil, and other contaminated material and place into clean, dry containers for disposal. Do not close drums containing wet or damp material. Do not transport wet or damp material.

7. HANDLING AND STORAGE
Precautions for safe handling
Where excessive dust may result, use approved respiratory protection equipment. Wear eye protection, face protection, protective clothing. Protective gloves. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Avoid dust formation. Avoid breathing dust.

Wash contaminated clothing before reuse.

Conditions for safe storage, including any incompatibilities
Keep only in only original container. Store in a dry place. Store in a well-ventilated place. Keep cool. Protect from sunlight. Keep container tightly closed.

Incompatible Materials
Acids, moisture.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION
Appropriate engineering controls
Ventilate rates should be matched for conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure.

Individual protection measures, such as personal protective equipment
Eye/Face Protection
Protective goggles.

Skin and Body Protection
Protective gloves and protective clothing.

Respiratory Protection
None required if good ventilation is maintained.

General Hygiene Considerations
Use appropriate personal protective equipment when risk assessment indicates this is necessary.

10. STABILITY AND REACTIVITY

Reactivity
Thermal decomposition may produce: Chlorine, Nitrogen, Nitrogen trichloride, Cyanogen chloride, unstabilized. Carbon oxides, Phosgene. The product is non-reactive under normal conditions of use, storage and transport.

Chemical Stability
No additional information available.

Possibility of Hazardous Reactions
Contact with acids liberates toxic gas. No contact with flammable substances.

Conditions to Avoid
No information available.

Incompatible Materials
Strong acids. Strong bases. Combustible materials. The active ingredient in this preparation is a strong oxidizing agent. The preparation of concentrated solutions or slurries is not recommended. Avoid contact with water on concentrated material in the container. Also avoid contact with easily oxidizable organic material: ammonia, urea or similar nitrogen containing compounds; inorganic reducing compounds; floor sweeping compounds; calcium hypochlorite and alkalis. Do not get water inside packaging.

Hazardous Decomposition Products
No additional information available.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure
Skin and eye contact.

Product Information
Eye Contact
This material is irritating to the eye. Direct contact may cause severe irritation, pain and burns, possibly severe, and permanent damage including blindness. The degree of injury depends on the concentration and duration of contact.

Skin Contact
Direct contact with wet material or moist skin may cause severe irritation, pain, and possibly burns. Dry material is less irritating than wet material. This material is not a skin sensitizer.

Inhalation
This material contained in this tablet in solid form is not expected to produce respiratory effects. Particles of respiratory size are generally not encountered. The respirable fraction for the tablet active ingredient is typically less than 0.1% by weight for the granular and extra granular grades. If it is ground or otherwise in a powdered form, effects similar to a corrosive substance may occur. May cause severe irritation of the respiratory tract with coughing, choking, pain and possibly burns of the mucous membranes. If significant or prolonged exposure occurs, pulmonary edema may develop, either immediately or more often within a period of 5-72 hours. The symptoms may include tightness in the chest, dyspnea, frothy sputum, cyanosis, and dizziness. Physical findings may include moist rales, low blood pressure and high pulse pressure. Severe cases may be fatal.

Ingestion
Not expected to present a significant ingestion hazard under anticipated conditions of normal use. Harmful if swallowed. Ingestion may cause immediate pain and severe burns of the mucous membranes. There may be discoloration of the tissues. Swallowing and speech may be difficult at first and then almost impossible. The effects on the esophagus and gastrointestinal tract may range from irritation to severe corrosion. Edema of the epiglottis and shock may occur.

STOT SE
STOT RE
Aspiration hazard
May cause respiratory irritation.

No information available.

Component Information
Sodium carbonate
CAS 497-19-8 – LD50 Oral/Rat = 2800 mg/kg (experimental value)
LD50 Dermal/Rabbit = >2000 mg/kg (experimental value) / ATE CLP/Oral = 2800 mg/kg body weight.

Trocsene sodium
CAS 2893-78-9 – ATE CLP/Oral = 500.00 mg/kg body weight.

Information on physical, chemical and toxicological effects

Symptoms
Please see section 4 of this SDS for symptoms.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Carcinogenicity
Not classified.

12. ECOLOGICAL INFORMATION

Ecotoxicity
Not determined.

Persistence/Degradability
Biodegradability not applicable. Low potential for absorption in soil.

Bioaccumulation

Mobility
Not determined.
13. DISPOSAL CONSIDERATIONS

Waste Treatment Methods

Disposal of Wastes
Disposal should be in accordance with applicable regional, national and local laws and regulations.

Contaminated Packaging
Disposal should be in accordance with applicable regional, national and local laws and regulations. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

Additional information
Do not put product, spilled product, partially filled containers into the waste compactor. Contact with incompatible materials could cause a reaction and fire. Do not transport damp or wet material. Neutralize materials to a non-oxidizing state for safe disposal.

14. TRANSPORT INFORMATION

Note
Please see current shipping paper for most up to date shipping information, including exemptions and special circumstances. Shipping in single gallons or less than in a container under DOT may be shipped: Consumer Commodity ORM-D until 1-1-2020.

Limited quantities
Can be shipped as a limited quantity when packed in inner or single packs ≤5kg.

15. REGULATORY INFORMATION

International Inventories

TSCA
Listed

Legend:
TSCA - United States Toxic Substances Control Act Section 8(b) Inventory

US Federal Regulations
This product or mixture does not contain a toxic chemical or chemicals in excess of the applicable de minimis concentration as specified in 40 CFR §372.38(a) subject to the reporting requirements of section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.

**US State Regulations**

**California Proposition 65**
This product does not contain a chemical known to the State of California to cause cancer, birth defects or other reproductive harm.

**U.S. State Right-to-Know Regulations**
Not determined.

This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Listed below is the hazard information as required on the pesticide label. EPA REG: 71847-6-9250

**DANGER**
**CORROSIVE**
Causes irreversible eye damage. Harmful if swallowed, inhaled or absorbed through the skin.
