4. FIRST-AID MEASURES

First Aid Measures

Eye Contact
Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Seek immediate medical attention/advice.

Skin Contact
Wash off immediately with plenty of water for at least 15 minutes. Take off contaminated clothing. Wash contaminated clothing before reuse. Get medical attention immediately. Do not apply oils or ointments unless ordered to by a physician. If skin feels slippery, caustic may still be present in sufficient quantities to cause rash or burn.

Inhalation
Remove to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Get medical attention immediately.

Ingestion
Do not induce vomiting. Drink a quart of water. Never give anything by mouth to an unconscious person. Get medical attention immediately. If spontaneous vomiting occurs, keep head below hips to prevent aspiration and monitor breathing.

Most important symptoms and effects

Symptoms
Irritation and corrosive burns to mouth, throat, and stomach. May cause pain, conjunctivitis of the eyes or burns. Prolonged contact may even cause severe skin irritation or mild burn. May cause damage to upper respiratory tract, mucous membranes and lung tissue.

Indication of any immediate medical attention and special treatment needed

Notes to Physician
Treat symptomatically.
5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media
Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable Extinguishing Media Avoid contact with water as exothermic reaction may result.

Specific Hazards Arising from the Chemical
Contact with metals may evolve flammable hydrogen gas. Contents are corrosive and all personal contact must be avoided. Product reacts exothermically with water.

Protective equipment and precautions for firefighters
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions Use personal protective equipment as required.

Methods and material for containment and cleaning up

Methods for Containment Prevent further leakage or spillage if safe to do so.

Methods for Clean-Up Contain and collect with an inert absorbent and place into an appropriate container for disposal. Neutralize solution with a dilute acid. Spills and releases may have to be reported to Federal and/or local authorities. See section 15.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on Safe Handling Wash thoroughly after handling. Use personal protection recommended in Section 8. Do not breathe dust/fume/gas/mist/vapors/spray. Do not get in eyes, on skin, or on clothing. Use only in well-ventilated areas. Do not eat, drink or smoke when using this product.

Conditions for safe storage, including any incompatibilities

Storage Conditions Keep containers tightly closed in a dry, cool and well-ventilated place. Keep locked up and out of reach of children. Protect from direct sunlight. Keep from freezing.
