Hazardous Combustion Products  When strongly heated, as in a fire, this product may produce oxides of carbon and phosphorous.

Protective equipment and precautions for firefighters
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Do not use water. Water spray to cool containers or protect personnel. Use with caution.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions  Use personal protective equipment as required.

Methods and material for containment and cleaning up

Methods for Containment  Prevent further leakage or spillage if safe to do so. Avoid runoff into storm sewers and ditches which lead to waterways.

Methods for Clean-Up  Small spills: Neutralize with diluted inorganic acid, then flush with water followed by liberal covering of sodium bicarbonate. Large spills: Contain the spill for proper disposal. Neutralize remaining traces with dilute inorganic acid such as hydrochloric or phosphoric acid then flush with water followed by liberal covering of sodium bicarbonate.
