1. IDENTIFICATION

Product Identifier
Product Name: United 974 UNITED STRUVOUT

Other means of identification
SDS #: UNITED-974

Recommended use of the chemical and restrictions on use
Recommended Use: Dispersant and Sequestrant.

Details of the supplier of the safety data sheet
Supplier Address:
United Laboratories, Inc.
320 37th Avenue
St. Charles, IL 60174
www.unitedlabsinc.com
www.unitedlabsinc.ca

Emergency Telephone Number
Company Phone Number: 800-323-2594 (to reorder)
Emergency Telephone (24 hr): INFOTRAC 1-800-535-5053 (North America)
1-352-323-3500 (International)

2. HAZARDS IDENTIFICATION

Appearance: Colorless liquid
Physical State: Liquid
Odor: Odorless

Classification
This chemical does not meet the hazardous criteria set forth by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200). However, this Safety Data Sheet (SDS) contains valuable information critical to the safe handling and proper use of this product. This SDS should be retained and available for employees and other users of this product.

3. COMPOSITION/INFORMATION ON INGREDIENTS

<table>

</tbody>
</table>

**If Chemical Name/CAS No is "proprietary" and/or Weight-% is listed as a range, the specific chemical identity and/or percentage of composition has been withheld as a trade secret.**
4. FIRST-AID MEASURES

First Aid Measures

**Eye Contact**
Immediately flush with large amounts of water for at least 15 minutes holding eyelids open to ensure flushing of the entire surface.

**Skin Contact**
Immediately wash contaminated areas with water. Remove contaminated clothing and footwear. Wash clothing and decontaminate footwear before reuse.

**Inhalation**
Remove to fresh air.

**Ingestion**
Never give anything by mouth to an unconscious person. If person is conscious, give large quantities of water or milk. Seek medical attention immediately.

Most important symptoms and effects

**Symptoms**
May cause eye irritation, redness and pain. May cause skin irritation. Prolonged or repeated exposure may cause skin inflammation and pain especially with moist skin. May cause irritation to respiratory tract which may include coughing and shortness of breath. Ingestion phosphates are slowly and incompletely absorbed when ingested, and seldom result in systemic effects. Symptoms may include vomiting, lethargy, diarrhea, blood chemistry effects, heart disturbances and central nervous system effects. The toxicity of phosphates is due to their ability to sequester calcium.

Indication of any immediate medical attention and special treatment needed

**Notes to Physician**
Treat symptomatically.

5. FIRE-FIGHTING MEASURES

**Suitable Extinguishing Media**
Use large quantities of water. Dike to contain.

**Unsuitable Extinguishing Media** Not determined

**Specific Hazards Arising from the Chemical**
Not determined

**Protective equipment and precautions for firefighters**
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Approach incident with caution.

6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures**

**Personal Precautions**
Use personal protective equipment as required.

**Environmental Precautions**
See Section 12 for additional Ecological Information. Do not flush into sanitary sewer system or surface water. If accidental release into the environment occurs, inform the responsible authorities. Keep the product away from drains, sewers, surface and ground water and soil.
Methods and material for containment and cleaning up

Prevent further leakage or spillage if safe to do so. Contain spill by collecting the liquid in a pit or absorb with inert media and dispose of properly. Disposal of all materials shall be in full and strict compliance with all federal, state, and local regulations pertaining to phosphates. Flush area with large amounts of water.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on Safe Handling

Wear protective gloves/protective clothing and eye/face protection. After handling phosphate solution, always wash hands thoroughly with soap and water. Avoid contact with skin and eyes.

Provide sufficient mechanical and/or local exhaust.

Conditions for safe storage, including any incompatibilities

Storage Conditions

Keep this product in a properly labeled, tightly closed container in a cool dry area.

Incompatible Materials

Strong oxidizing agents such as bleach.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidelines

Appropriate engineering controls

Engineering Controls

Provide sufficient mechanical and/or local exhaust.

Individual protection measures, such as personal protective equipment

Eye/Face Protection

Safety glasses with side shields or safety goggles are recommended. Provide eyewash in working area.

Skin and Body Protection

Rubber or plastic gloves are recommended. Long sleeve shirt and long pants.

Respiratory Protection

Normally not required. IF TLV is exceeded, use a NIOSH/MSHA approved respirator.

General Hygiene Considerations

Handle in accordance with good industrial hygiene and safety practice.

9. PHYSICAL AND CHEMICAL PROPERTIES

### 10. STABILITY AND REACTIVITY

**Reactivity**
Not reactive under normal conditions.

**Chemical Stability**
Stable under recommended storage conditions.

**Possibility of Hazardous Reactions**
Under normal conditions of storage and use, hazardous polymerization will not occur.

**Conditions to Avoid**
Keep out of reach of children.

**Incompatible Materials**

**Hazardous Decomposition Products**
When strongly heated, as in a fire, this product may form toxic fumes of phosphorous oxides.

### 11. TOXICOLOGICAL INFORMATION

**Information on likely routes of exposure**

**Product Information**

**Eye Contact**
Avoid contact with eyes.

**Skin Contact**
Avoid contact with skin.

**Inhalation**
Do not inhale.

**Ingestion**
Do not ingest.

**Information on physical, chemical and toxicological effects**

**Symptoms**
Please see section 4 of this SDS for symptoms.

**Delayed and immediate effects as well as chronic effects from short and long-term exposure**

**Carcinogenicity**
Based on the information provided, this product does not contain any carcinogens or potential carcinogens as listed by OSHA, IARC or NTP.
Acute toxicity
Phosphate toxicity can occur with over dosage. Severe phosphate toxicity can result in hypocalcemia, and in various symptoms resulting from low plasma calcium levels.

Chronic toxicity

No known cases of chronic poisoning due to phosphate solutions have been reported. May sequester calcium and cause calcium phosphate deposits in the kidneys. Systemic metabolic acidosis may result as this material is believed to be hydrolyzed to ortho phosphates when ingested (before absorption).

12. ECOLOGICAL INFORMATION

Ecotoxicity
Not determined

Persistence/Degradability
Possible short term degradation products are not likely. However, in long term orthophosphate formation may occur.

Bioaccumulation
Not determined

Mobility
Miscible in water.

Other Adverse Effects
Not determined

13. DISPOSAL CONSIDERATIONS

Waste Treatment Methods

Disposal of Wastes
Disposal should be in accordance with applicable regional, national and local laws and regulations pertaining to phosphates. This product when it becomes a waste is considered as a non-hazardous waste. However, chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. US PA guidelines for the classification determination are listed in 40 CFR Parts 261.3.

RCRA P-Series: None Listed.
RCPA U-Series: None Listed.

Contaminated Packaging
Disposal should be in accordance with applicable regional, national and local laws and regulations.

SARA 313
Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

CWA (Clean Water Act)
None of the substances in this preparation product are listed as Hazardous Substances under the CWA.

US State Regulations

California Proposition 65
This product does not contain a chemical known to the State of California to cause cancer, birth defects or other reproductive harm.
